

## 59 Coldtainer used by the Slovak National Transfusion Service

### **NTS** NÁRODNÁ TRANSFÚZNA SLUŽBA SR

The NTS (the Slovak National Transfusion Service) has recently adopted 59 Coldtainer 12V mobile professional refrigerators to equip its vans used for blood donation sessions.

The vans transport all the necessary to set up a donation the venue also multiple 12V Coldtainer units (T0022/FDH, T0032/FDH or T0056/FDH) to safely transport at controlled temperature the bags of donated blood, that will be processed and stored at central laboratory.

easy cooling, smart moving
